FNSI's Profile

Fiber Network Solutions, Inc. (FNSI) is a Network Services Provider (NSP) and Tier One Internet backbone provider. Founded in 1996, FNSI operates a national IP network backbone that is ranked among the top seven providers in North America, and within the top sixteen in total backbone market share. The FNSI network was created with state-of-the-art technology, expert engineering, multiple redundancy and automated crisis management escalation routines.

The FNSI network marries speed and unparalleled client support. FNSI delivers service to customers in; Cleveland Ohio, Akron Ohio, Canton Ohio, Columbus Ohio, Dayton Ohio, Cincinnati Ohio, Toledo Ohio, Detroit Michigan, Southfield Michigan, Pittsburgh Pennsylvania, and Chicago Illinois as well as vicinities contiguous to these base metropolitan areas.

FNSI's core services include; Commercial Internet access, Server collocation data centers, Virtual Private Networks, wholesale xDSL network and Internet access services, ATM Transport and Frame Relay network services.

FNSI's Team

FNSI employs a talented staff of individuals who embrace an encouraging environment that provides the necessary resources to pursue and achieve their highest potentials. Our organization has developed a culture that truly captures the entrepreneurial spirit of innovative thinking people. If you believe that you possess the desire to advance and are prepared to embrace a work ethic that will lead to your success, please send your resume to the Human Resources department at apply@fnsi.net.
