FirstName: Ingeborg "Inga"

LastName: Housley

PrimaryPhoneNumber: NA

Domain: fibernetworksolutions.net

Description: Fibernetworksolutions.net is hosted on HostGator servers (prior ticket ABU-149339 now closed). Operator David J. Koch has republished defamatory content previously removed from PRLog for violations. The attached PDF "Generational Fallout" (July 1, 2025) contains false federal criminal allegations against private individuals, fabricated witness testimony from Koch's own husband presented as independent evidence, specific targeting of our son's employer [REDACTED] and his FAA pilot certificate, and false RICO allegations ? all completely fabricated. An FBI IC3 complaint has been filed. This matter has been referred to legal counsel. I request immediate removal and full account review.
